AUTOEXPRESS – FAST AND EFFECTIVE

The AUTOEXPRESS brand has proven to be effective according to car owners in Russia. Effective and reliable products are well known to customers throughout Russia. The AUTOEXPRESS product line is most widely represented in major retail chains and gas stations.

Over the years, winter and summer AUTOEXPRESS windshield washer fluids have been chosen due to good value for money. AUTOEXPRESS products' composition is based on high-quality imported and domestically manufactured components, which provide the final product full compliance with classifications of international manufacturers and with all modern requirements of the automotive industry.

The basis of the AUTOEXPRESS range is cooling fluids that are guaranteed to cope with their functions in the stated temperature ranges, remaining effective even in conditions of extremely low temperatures. All fluids are made of high-grade isopropyl alcohol and have a pleasant smell and are absolutely safe for car coatings.

In-house production and laboratory facilities allow controlling the entire manufacturing process as well as bottling and packaging of products. The facilities provide high-quality products in commercial batches of any volume and have an extensive line of products for both automotive systems and car care products.

As a result of years of experience and market expertise, AUTOEXPRESS compositions have proven themselves in professional applications in car repair shops and car washes.

Today, the AUTOEXPRESS brand belongs to Titan-SM, LLC.

Titan-SM, LLC (a part of the AO GC Titan) is a modern and dynamically developing enterprise and is one of the largest manufacturers of greases in Russia and the CIS.

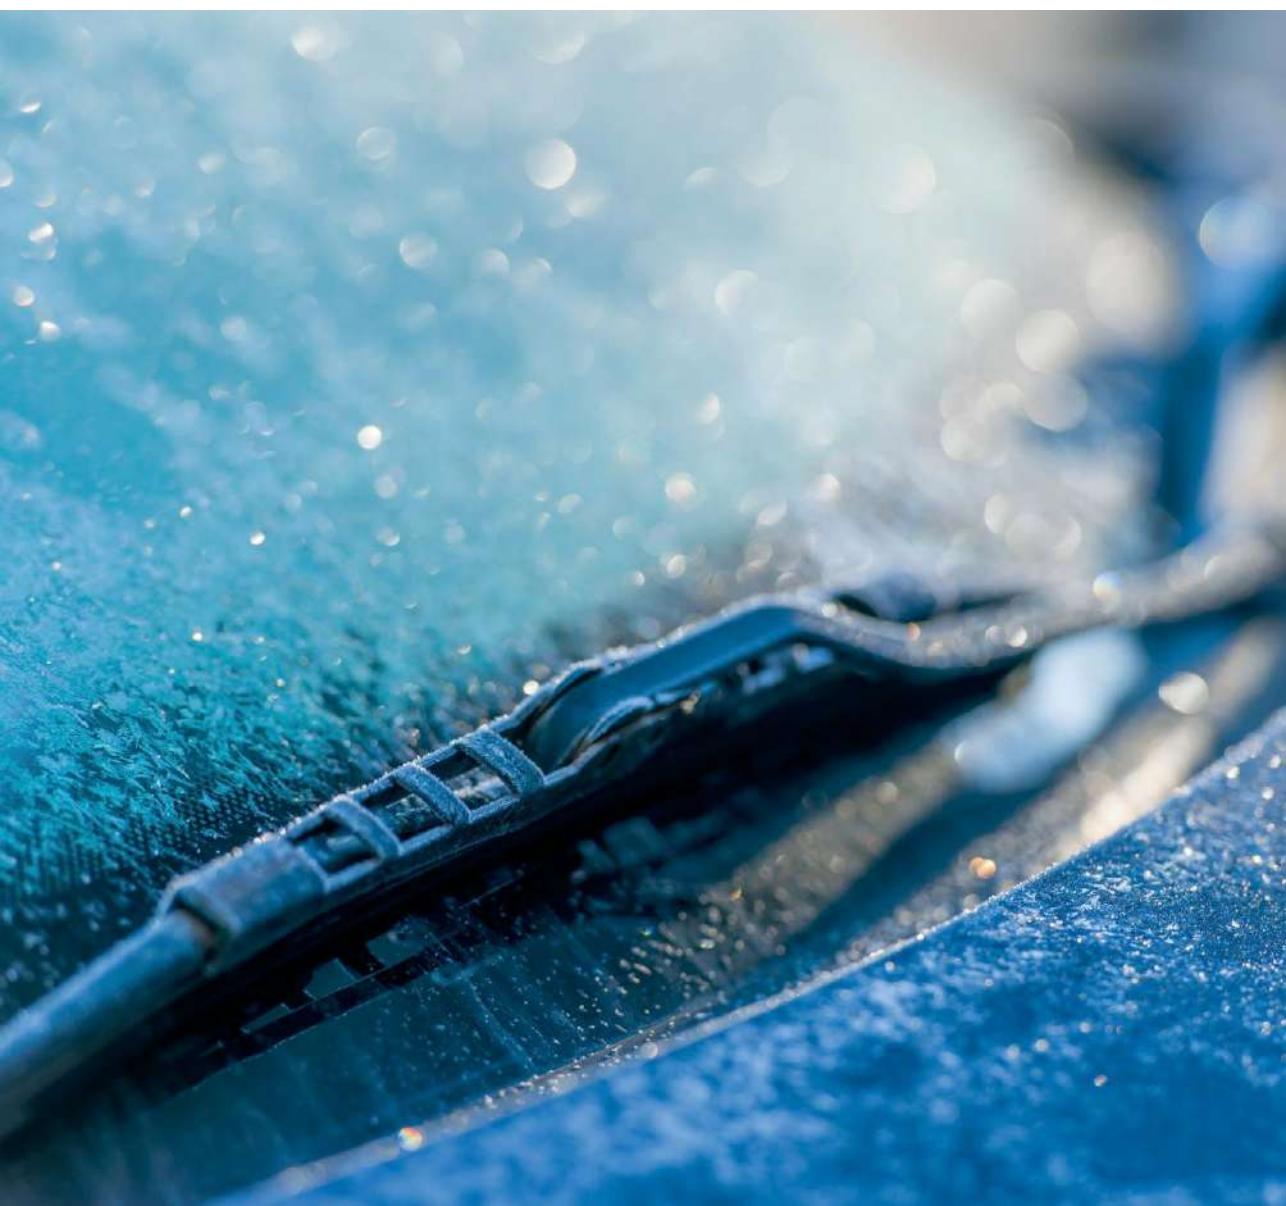

The basis of Titan-SM, LLC production facilities includes process units for the production of greases and cooling fluids for different industries: mechanical engineering, metallurgy, instrument engineering, automobile and railway transport, metal processing, as well as the defense complex.

A complete restyling of all AUTOEXPRESS products was carried out in 2020. The entire line received a modern label design, new bottles were developed, formulations were improved, and the range was expanded.

Windshield washers

WINTER

Glass washing liquid concentrate -50°C and -70°C is designed for use in the windshield washer system in winter. Protects glass and its contour from freezing at low temperatures from -50 to -70°C. The unique chemical formula allows you to effectively remove dirt, salt and oil film without leaving streaks. The liquid is harmless to coatings and windows rubber. Does not leave biological dirt, glare, oil stains and streaks on glass, improving driving safety.

- 40 °C	HDPE 5kg	AE01075

High-quality cooling fluid based on ethylene glycol and produced using carboxylate technology with the latest high-performance additives. Designed for use at operating temperatures down to - 42° C. Effectively abstracts heat, maintains the correct engine temperature, keeps the engine clean, and protects the cooling system against corrosion for the entire period of use. Does not contain non-organic additives: nitrites, amines, phosphates, borates and silicates.

Auto cosmetics

AUTO SHAMPOO

Auto shampoo for non-contact washing AUTOEXPRESS 1:40

CONCENTRATE

1kg / 4kg

HDPE 1 kg AE5101
HDPE 4 kg AE5104

Auto shampoo for non-contact washing is designed for contactless washing of cars and trucks using foam generators and foam kits. The unique formula ensures effective and harmless washing of car parts making them shine and provides protective effects. It can be easily washed off with water. It is safe for aluminum, chrome and plastic surfaces. Does not leave any streaks.

Auto shampoo for car hand washing AUTOEXPRESS

POLISHING EFFECT

0,5L

HDPE 0,5 L AE5110

Ensures effective and harmless washing of car parts making them shine and provides protective effects. It can be easily washed off with water. Does not leave any streaks. Forms a polymer film which protects against negative atmospheric precipitation, oil dirt, and road salt solutions.

AUTOEXPRESS

Trigger

CLEANERS

General-purpose

GLASS CLEANER

500 ML

AUTOEXPRESS

AE5011

The cleaner for glass, mirrors, plastic and chrome. Gives the surface an antistatic effect. Leaves no scratches, ensures maximum transparency with no streaks.

Winter

GLASS CLEANER

500 ML

AUTOEXPRESS

AE5021

Designed for use at low temperatures down to -30°C . Perfectly cleans glass, mirrors and headlights from dirt, exhaust film and road reagents. Removes contamination covered with frost or a thin crust of ice. Has an immediate effect, makes glass shine leaving no streaks, and ensures maximum transparency.

Bug

REMOVER

500 ML

AUTOEXPRESS

AE5160

Quickly and easily removes insect debris from glass, plastic and chrome bumpers, hood, and radiator grille. Has a great cleansing power.

Plastic

CLEANER

500 ML

AUTOEXPRESS

AE5140

Cleans internal and external car parts and plastic elements of interior from dirt, grease spots, insect debris. Has a great cleansing power. Penetrates into micro cracks and plastic pores, dissolves and pushes out dirt particles. Restores the color of plastic parts.

Upholstery

CLEANER

500 ML

AUTOEXPRESS

AE5165

For deep cleaning of fabric upholstery, car mats, and carpet surface. Quickly removes contamination, restores the original color and appearance.

Leather

CLEANER

500 ML

AUTOEXPRESS

AE5170

Effectively removes contamination from all types of leather upholstery, providing deep cleaning. Restores the original color of the leather surface eliminating unpleasant smell. The cleaner can also be used for a wide range of items: briefcases, suitcases, bags, furniture upholstery, and leather sports goods.

Wheel disc

CLEANER

500 ML

AUTOEXPRESS

AE5180

Designed to clean heavily contaminated areas on wheel discs including resins, petroleum products, soot, rust, and dust from brake pads which are impossible to wash off using auto shampoo.

Safe for coatings, rubber and plastic parts, items made from non-ferrous metal.

Tire

CLEANER-BLACKER

500 ML

AUTOEXPRESS

AE5130

Water-based composition for cleaning and polishing tires and other rubber parts. Recovers black color, renews the surface, and adds a glossy shine. Preserves from cracking, aging and losing color.

Engine

CLEANER

500 ML

AUTOEXPRESS

AE5200

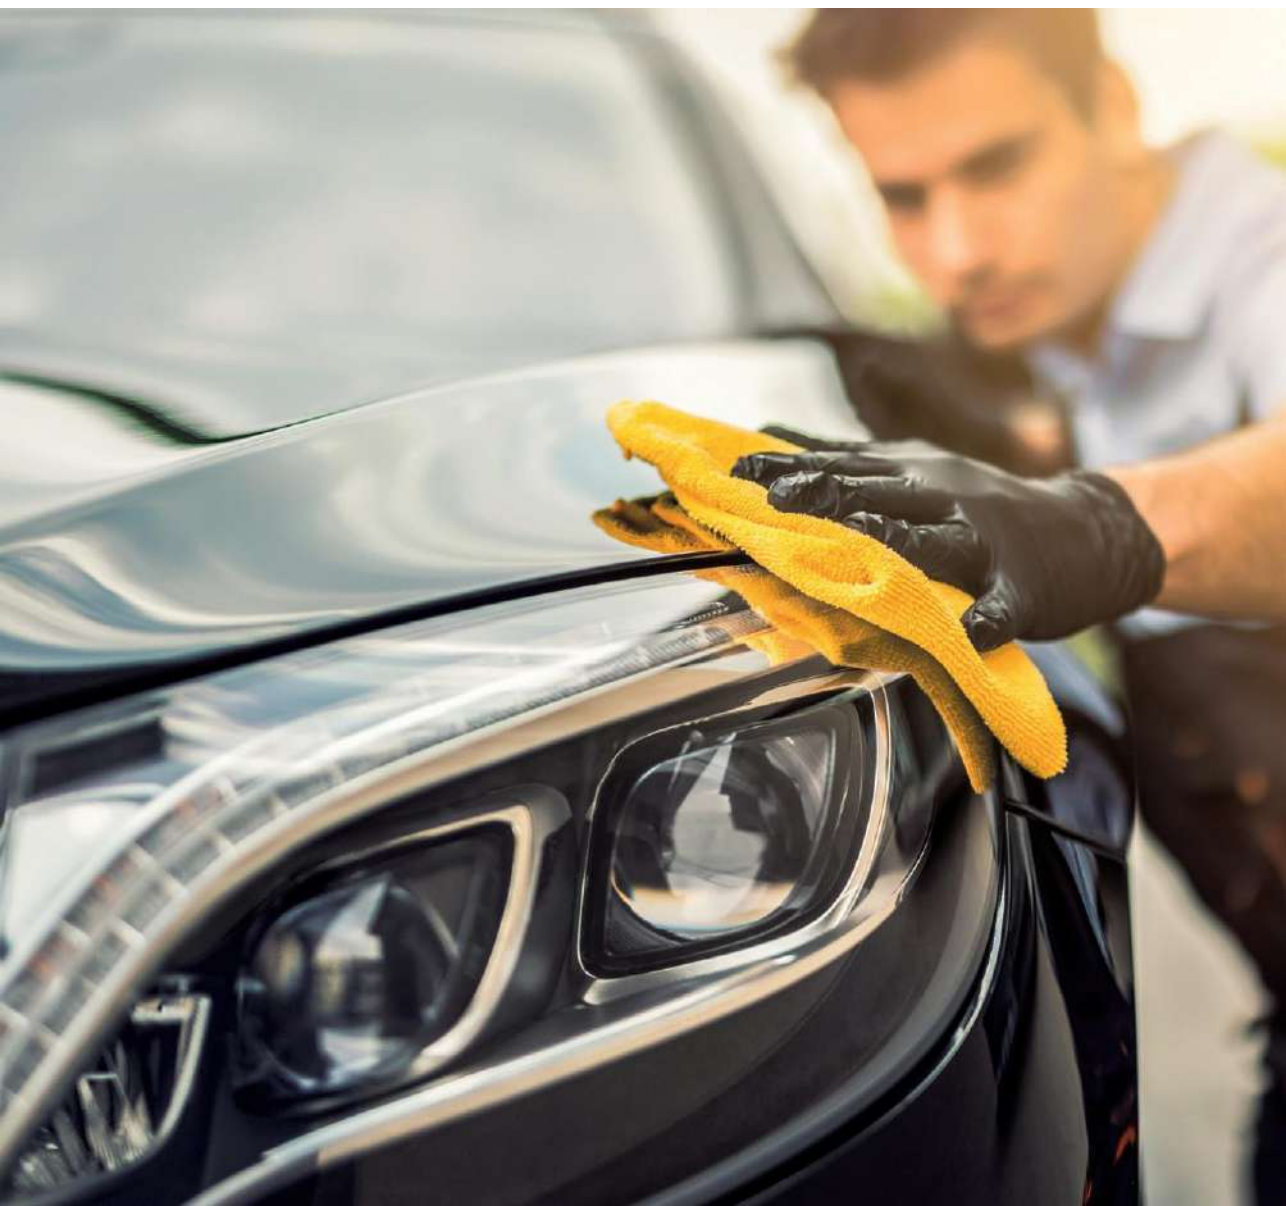

Effective water-based composition easily dissolves dirt, road dust and oil stains on the outside of the car engine. Harmless in contact with plastics, rubber and metal. Non-toxic, non-flammable, can be easily washed off. It can be used for cleaning motorcycle engines, boats, farm machinery, and industrial equipment.

AUTOEXPRESS

Spray

AUTO COSMETICS

ANTI-FOG 300 ML AUTOEXPRESS

AE5040

Improves visibility and driving safety; indispensable in rain and snow. A thin film covering glass does not lose its effectiveness even if it got frosty after the previous day's treatment. At the same time it maintains transparency and high protection against fogging. Can also be used for mirrors in bathrooms and glasses.

ANTI-RAIN 300 ML AUTOEXPRESS

AE5030

The combination of silicone elastomers and washing components. Designed for the modernization of the windshield giving hydrophobic (water and dirt repellent) effects. Ensures good visibility and clear view when the weather is bad (rain, fog, and wet snow), reducing tiredness and improving driving safety.

Glass de-icer ANTI-ICE 300 ML AUTOEXPRESS

AE5025

Designed for cleaning car glass, headlights, wipers from ice and snow. Does not leave any streaks and spots after drying. Ensures smooth sliding of wipers, protects the surface against abrasive wear and cracking.

General-purpose

GLASS CLEANER

300 ML

AUTOEXPRESS

AE5012

Designed for hand washing of car glass (including tinted ones), and mirrors. Easily remove road dirt, bird dropping, insect debris, and tree buds from the outside surface of glass. Has a pleasant smell, leaves no streaks.

Dashboard

CLEANER

300 ML

AUTOEXPRESS

AE5150

Has a great cleansing power. Penetrates into micro cracks and plastic pores, dissolves and pushes out dirt particles. Restores yellowed plastic parts to their original appearance and renews them significantly. Eliminates such unpleasant smell as tobacco smell, leaving a pleasant aroma.

Bitumen spots

CLEANER

300 ML

AUTOEXPRESS

AE5190

Quickly and effectively cleans the body of the car from stubborn bitumen stains and road tar. The active ingredients in the composition remove stubborn dirt, penetrating into pores and micro cracks.

AUTOEXPRESS

Distilled

WATER

Distilled water AUTOEXPRESS

PET

1 L / 4 L

PET 1 L AE0801
PET 4 L AE0804

Distilled water for technical use

Water purified from dissolved mineral and organic salts. Does not contain harmful compounds. Designed for domestic use and car maintenance: can be added to automotive batteries, windshield washer reservoirs etc. Extends batteries life and increases reliability. Preserves premature wear of coolants. Perfectly suitable for domestic use (filling of irons, steam generators, heating and other systems).

AUTOEXPRESS

Greases Lock de-icers

**TECHNICAL FLUIDS
SPECIAL COMPOSITIONS**

General-purpose

GREASE 60 ML

AUTOEXPRESS AE4006

Effectively greases padlocks and locks of car doors and trunks, and garages. Displaces moisture, prevents re-freezing, prevents corrosion, ensures easy and reliable opening of the lock at low ambient temperatures.

Silicone

GREASE 60 ML

AUTOEXPRESS AE4005

Effectively greases padlocks and locks of car doors and trunks, and garages. Based on silicone which displaces moisture, prevents re-freezing, prevents corrosion, ensures easy and reliable opening of the lock at low ambient temperatures.

Graphite

DRY GREASE 60 ML

AUTOEXPRESS AE4015

High-quality dry grease is used as a care product for hinges, locks and door limiters, and as a prophylactic against seizing of locking mechanisms in winter or to eliminate door hinges squeaking. It is used when it is necessary to create a smooth operation of mechanisms. Helps to extend the life of equipment - increases parts' service life and reduces wear.

Lock

DE-ICER 60 ML

AUTOEXPRESS AE4010

Quickly and effectively defrosts padlocks and locks of car doors and trunks, and garages and other frozen mechanical joints. Contains silicone which displaces moisture, prevents re-freezing, prevents corrosion, ensures easy and reliable opening of the lock at low ambient temperatures.
